

School Council meeting Tuesday 9th and Thursday 11th February 2016

School Dinners and the Dining Hall.

We had a pre-meeting on Tuesday 9th February where we posed some questions for the children to ask their classes regarding the changes to the menus and the dining hall itself.

The questions were as following with the answers collected on Thursday 11th February. All the answers are comments from each representative's class:

Do you like the school dinners? What do you like about them?

Food is so good it makes someone in year 4 very hungry and she thoroughly enjoys it! The rice is nice when it is both spicy and plain. Jacket potatoes and pineapple are a popular choice across all year groups. The children liked that if you have rice pudding, you have a choice if you want a topping on it.

How do you feel about the new plate and tray system?

Love them but think the bowls for dessert could be bigger so get more!!!

Do you like the new design in the dining hall?

Yes. The counter where the food is served has bread displayed and that looks really nice. Colours of the wall are cheerful and the red wall is great because it matches the uniform!! Photos are great to look at whilst eating.

Is it better with the school dinners and packed lunches separate and why?

Easier to move around and the rubbish is cleared easily and quickly with packed lunches and school dinners being separate. Only thing that wasn't as popular about this was that children who were school dinners missed their friends to chat who were packed lunches during eating time.
